

WHY USE

CAR WARS + GOTO CONNECT

INTEGRATION?

Utilize the best-in-class call monitoring and analytics with Car Wars to ingest all calls from your GoTo phone system.

Create a new phone number in your phone system that is automatically tracked, recorded, and analyzed in Car Wars. No additional tracking numbers or call forwarding required.

Call Assignment using *last* extension that handled the call — 99%+ calls assigned, no phone codes or voice recognition needed.

Car Wars takes the audio that is split into segments in your phone system and combines it together into a single end-to-end call recording.

Human Review + Artificial Intelligence to analyze the content of all inbound and outbound calls.

Reporting and alerts by staff member, marketing source, store, and department.

Ingest 100% of inbound and outbound call traffic from your phone system.

Seamless CRM Integration.
